

# JINfo

**December 27–31, 2004**

[www.jin.wa.gov](http://www.jin.wa.gov)

Brian LeDuc, Program Director

## **JIN Data Exchange (JINDEX)**

I received comments on the Customer Requirements Report from WSP. I also received a first draft of the Alternatives Document, which I circulated to the Technical Advisory Group. We will meet on January 4<sup>th</sup> to discuss this matter further. For your information, an excellent discussion of the merits of service oriented architectures (which we are building) by the Global Infrastructure/Standards Working Group is available at [http://it.ojp.gov/documents/20041209\\_SOA\\_Report.pdf](http://it.ojp.gov/documents/20041209_SOA_Report.pdf).

I also began to work with DIS budget staff to determine the logistics of the required 25% match for project expenditures and the submission of project expenses to OFM.

## **Summary Offender Profile (SOP)**

The downtime continues. I called in the operational support contractor, but she was unable to repair the problem, although she did identify that “net logon” was not running. Unfortunately, this means nothing to me and I have sent an SOS to Templar and DIS. Meanwhile, two sets of pilot users are awaiting their accounts.

## **National Governors Association (NGA) Grant Opportunity**

I met with Mark Knutson of LESA and Dan Parsons of the WSP to discuss a proposal for the creation of an XML version of the incident report. The NGA is offering grants of up to \$50,000 for states to pursue pilot initiatives using Justice XML 3.0. It was clear from the discussion that WASPC might also have an interest in the project and I have solicited their involvement. The proposal is due on January 7<sup>th</sup>, and I have discussed with Garry Austin of OFM (as well as NGA representatives) the acceptability of a letter of endorsement from Governor Locke should the now current Governor-elect be unable to attend to the matter before next Friday.

## **Electronic Citations**

I received a contract for project funding from the WSP and have begun to draft a statement of work. I will try to discuss this further with AOC and to convene the project steering committee over the next couple of weeks. I don't think it makes sense to solicit interest in the project until a decision is made on the integration platform for JINDEX, which is scheduled for early next year.

## **Miscellaneous**

? Congratulations to Teri Nielsen on her new position with AOC. I wish her all success in her new endeavor and mourn her departure from the Board. The WSACC has appointed Siri Woods to take Teri's place and I will try to brief her before the next meeting, which is currently scheduled for January 18<sup>th</sup>.

? I put out a call on the list serv for funding needs for local projects. It is my resolution for 2005 to do a better job in identifying candidates for grants and providing assistance in drafting proposals.
